Supplied in Black Presentation Mounts      £12.50 each

## DIGITAL FILES

File size is 3600x2400 pixels. You can easily make A3 size prints

Each Image	£12.50
or	
All images from session on a USB	£125.00

Your photos are normally ready within 48 hours of ordering

## Some advice to help you get the best from your photo session

### What to Wear

Photos look better when clothes are coordinated across the group, so all smart or all casual works best, pastel colours work better than strong ones

Try and coordinate colours, so for example if everyone is in a shade of blue don't have one person in bright orange!

Bold patterns, and logos tend to dominate an image and can also have the effect of dating a photo quite rapidly

Younger children tend to look better in bare feet, so don't worry too much about their shoes

### When to book

The studio works on an appointment scheme, and so bookings can be made around work patterns etc.

Please consider a young child's eating/sleeping pattern. If they tend to have a nap between 2pm and 3.30pm, its best not to make a 3pm appointment

### Other things to consider

The studio is at the back of my house and has no toilet facilities. I would also ask that you please don't smoke either in the studio itself, or the garden

Please don't eat or drink in the studio

There is a step up in to the studio, and the door isn't very wide, so unfortunately the access isn't suitable for wheelchairs

Parking is available for 3 cars

### Viewing your images

I try and have proof photos online within 24 hours of your session. I will email a link to your images once they are ready to view
